

860,716 Shares of Common Stock

**Nxt-ID, Inc.**

This prospectus relates to the offer and resale by the selling stockholders identified in this prospectus of up to an aggregate of 860,716 shares of our common stock, \$0.0001 par value per share (the “Common Stock”). The offered shares of Common Stock are issuable, or may in the future become issuable, with respect to the exercise of common stock purchase warrants (the “Warrants”) issued in connection with a private placement we completed pursuant to a Warrant Purchase Agreement, dated July 30, 2015 (the “Warrant Purchase Agreement”), between us and certain purchasers thereto. See “Private Placement of Warrants.” For additional information on the Warrants, see “Selling Stockholders—Material Relationships with Selling Stockholders.”

We will not receive any of the proceeds from the sale of the Common Stock by the selling stockholders. However, to the extent the Warrants are exercised for cash, if at all, we will receive up to \$2,022,683.

The selling stockholders identified in this prospectus may offer the shares of Common Stock from time to time through public or private transactions at prevailing market prices or at privately negotiated prices. See “Plan of Distribution.”

We have agreed to pay certain expenses in connection with the registration of the shares of Common Stock. The selling stockholders will pay all brokerage expenses, fees, discounts and selling commissions, if any, in connection with the sale of the shares of Common Stock.

Our Common Stock is currently traded on the NASDAQ Capital Market under the symbol “NXTD.” On October 8, 2015, the last reported sale price of our Common Stock as reported on the NASDAQ Capital Market was \$1.10 per share.

We are an “emerging growth company” as the term is used in the Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”) and, as such, have elected to comply with certain reduced public company reporting requirements for this and future filings.

PROSPECTUS SUMMARY

This summary highlights selected information contained elsewhere in this prospectus or in documents incorporated herein by reference. This summary does not contain all the information that you should consider before investing in our securities. You should carefully read the entire prospectus, including "Risk Factors," our consolidated financial statements and the information incorporated by reference herein, before making an investment decision.

Our Company

We are an early stage technology company that is focused on products, solutions, and services that have a need for biometric secure access control. We have three distinct lines of business that we are currently pursuing: mobile commerce ("m-commerce"); law enforcement and biometric access control applications. Our initial efforts have primarily focused on the development of our secure products for the growing m-commerce market, most immediately, a secure mobile electronic smart wallet. The wocket® is a smart wallet, the next evolution in smart devices following the smart phone and smart watch, designed to protect your identity and replace all the cards in your wallet, with no smart phone required. The wocket® works anywhere credit cards are accepted and only works with your biometric stamp of approval. Credit, debit, ATM, loyalty, gift, ID, membership, insurance, ticket, emergency, medical, business, contacts, coupon, and virtually any card can be protected on the wocket®. More than 10,000 cards, records, coupons, etc. and 100 voice commands can also be stored on the wocket®.

Wocket® prototype

Our plan also anticipates that we will use our core biometric facial and voice recognition algorithms to develop security applications (both cloud based and locally hosted) that can be used for corporations (industrial uses such as enterprise computer networks) as well as individuals (consumer uses such as smart phones, tablets or personal computers). Finally, our plan calls for a suite of high level security products and facial recognition applications that can be utilized by law enforcement, the defense industry, and the U.S. Department of Homeland Security.

We believe that our MobileBio™ products, together with our biometric security solutions, will provide distinct advantages within these markets by improving mobile security. Currently most mobile devices continue to be protected simply by PIN numbers. This security methodology is easily duplicated on another device, and can be easily spoofed or hacked. Our biometric security paradigm is Dynamic Pairing Codes (DPC). DPC is a new, proprietary method to secure users, devices, accounts, locations and servers over any communication media by sharing key identifiers, including biometric-enabled identifiers, between end-points by passing dynamic pairing codes (random numbers) between end-points to establish sessions and/or transactions without exposing identifiers or keys. The recent high-level breaches of personal credit card data raise serious concerns among consumers about the safety of their money. These consumers are also resistant to letting technology companies learn even more about their personal purchasing habits.

We also plan to service the access control and law enforcement facial recognition markets with our existing 3D facial recognition technology products beginning with U.S. federal and state governmental agencies. These products, whose underlying technologies have been licensed by us, provide customers with the capability to enroll subjects in a 3D database and use that database for verification of identities. During 2012, we acquired 100% of the membership interests in an entity affiliated with our founders as a means toward advancing our business plan.

Corporate Information

The Company is a Delaware corporation formed on February 8, 2012. We were initially known as Tylon Governmental Systems, Inc. We changed our name to Nxt-ID, Inc. on June 25, 2012 to reflect our primary focus on our growing biometric identification, m-commerce and secure mobile platforms.

We are an “emerging growth company” as defined in the Jumpstart Our Business Startups Act of 2012, or JOBS Act. We will remain an emerging growth company for up to five years, or until the earliest of (i) the last day of the first fiscal year in which our annual gross revenue exceeds \$1 billion, (ii) the date that we become a “large accelerated filer” as defined in Rule 12b-2 under the Exchange Act, which would occur if the market value of our common stock that is held by non-affiliates exceeds \$700 million as of the last business day of our most recently completed second fiscal quarter or (iii) the date on which we have issued more than \$1 billion in non-convertible debt during the preceding three-year period. Pursuant to Section 107 of the JOBS Act, we have elected to utilize the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards.

See “Use of Proceeds.”

NASDAQ Symbol: Our Common Stock is listed on the NASDAQ Capital Market under the symbol “NXTD”.

Risk Factors: You should read the “Risk Factors” section of this prospectus for a discussion of factors to carefully consider before deciding to invest in shares of our Common Stock.

RISK FACTORS

Investing in our securities involves a high degree of risk. You should carefully consider the risks and uncertainties described under the heading “Risk Factors” in our most recent Annual Report on Form 10-K on file with the SEC and any of our other filings with the SEC pursuant to Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act, which are incorporated by reference in this prospectus and any prospectus supplement, and the additional risks and uncertainties described below before purchasing our securities. The risks and uncertainties we have described are not the only ones facing our company. If any of these risks actually occur, our business, financial condition or results of operations would likely suffer. In that case, the trading price of our common stock could fall, and you may lose all or part of your investment. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect our business operations. Before making an investment decision, you should carefully consider these risks as well as the other information we include or incorporate by reference in this prospectus and any prospectus supplement.

Risks Relating to our Warrants

Our stockholders may experience significant dilution.

As of October 8, 2015, we had approximately 860,716 shares of our Common Stock reserved or designated for future issuance in connection with the exercise of the Warrants, subject to potential future anti-dilution adjustments. Although certain exercise restrictions are placed upon the holders of the Warrants, the issuance of material amounts of Common Stock by us would cause our existing stockholders to experience significant dilution in their investment in our company. In addition, if we obtain additional financing involving the issuance of equity securities or securities convertible into equity securities, our existing stockholders’ investment would be further diluted. Such dilution could cause the market price of our Common Stock to decline, which could impair our ability to raise additional financing.

Sales of a significant number of shares of our Common Stock in the public markets or significant short sales of our Common Stock, or the perception that such sales could occur, could depress the market price of our Common Stock and impair our ability to raise capital.

Sales of a substantial number of shares of our Common Stock or other equity-related securities in the public markets, including any shares of Common Stock issued upon exercise of the Warrants, could depress the market price of our Common Stock. If there are significant short sales of our Common Stock, the price decline that could result from this activity may cause the share price to decline more so, which, in turn, may cause long holders of the Common Stock to sell their shares, thereby contributing to sales of Common Stock in the market. Such sales also may impair our ability to raise capital through the sale of additional equity securities in the future at a time and price that our management deems acceptable, if at all.

We may not be able to maintain effectiveness of the registration statement of which this prospectus forms a part, which could impact the liquidity of our Common Stock.

Under the terms of the Registration Rights Agreement (defined below), we are obligated to include shares of Common Stock issued or issuable upon the exercise of the Warrants, in an effective registration statement. The registration statement of which this prospectus forms a part is intended to satisfy these obligations. We intend to use our best efforts to maintain the effectiveness of the registration statement, but may not be able to do so. We cannot assure you that no stop order will be issued, or if such a stop order is issued, we will be able to amend the registration statement to defeat the stop order. If the registration statement is not effective, the selling stockholders’ ability to sell the shares of Common Stock underlying the Warrants may be limited, which would have a material adverse effect on the liquidity of our Common Stock.

USE OF PROCEEDS

The selling stockholders will receive all of the proceeds from the sale of shares of Common Stock under this prospectus. We will not receive any proceeds from these sales. To the extent proceeds are received upon exercise of the Warrants, we will receive up to \$2,022,683, which proceeds we intend to use for general corporate purposes, which may include, among other things, working capital, capital expenditures, product development, marketing activities, acquisitions of new technologies and investments, repayment of debt and repurchases and redemptions of securities. The selling stockholders will pay any agent's commissions and expenses they incur for brokerage, accounting, tax or legal services or any other expenses they incur in disposing of the shares of Common Stock. We will bear all other costs, fees and expenses incurred in effecting the registration of the shares of Common Stock covered by this prospectus and any prospectus supplement. These may include, without limitation, all registration and filing fees, SEC filing fees and expenses of compliance with state securities or "blue sky" laws.

PRIVATE PLACEMENT OF WARRANTS

On August 4, 2015, in conjunction with our public offering of 1,721,429 shares of Common Stock, pursuant to the Warrant Purchase Agreement we sold to certain purchasers the Warrants to purchase up to 860,716 shares of Common Stock at a price of \$0.0000001 per Warrant for an aggregate purchase price of \$0.09.

Description of the Warrants

The Warrants entitle the holders to purchase up to 860,716 shares of Common Stock. The Warrants are exercisable beginning six (6) months after issuance through the fifth (5th) anniversary of such initial exercisability date. The Warrants have an initial exercise price equal to \$2.35 per share, which exercise price is subject to adjustment for stock splits, stock dividends, combinations or similar events.

If there is no effective registration statement available registering the shares of Common Stock underlying the Warrants, such Warrants may be exercised on a cashless basis.

Limitations on Exercise

The Warrants may not be exercised if, after giving effect to the exercise, the holder of such Warrants, its affiliates and any persons acting as a group together with the holder or any of its affiliates would beneficially own in excess of 4.99% of the outstanding shares of our Common Stock. At a holder's option, the ownership percentage limitation applicable to the exercise of the Warrants may be raised or lowered to any other percentage not in excess of 9.99%, except that any increase will only be effective upon 61-days' prior notice to us.

Registration Rights Agreement

Pursuant to the Registration Rights Agreement, dated July 30, 2015, between us and certain purchasers (the "Registration Right Agreement") we are required to file a registration statement within sixty (60) days after the closing date of the issuance of the Warrants, to have such registration statement declared effective within one hundred eighty (180) days following the filing of such registration statement and to use our best efforts to maintain the effectiveness of such registration statement until all registrable securities covered by the registration statement have been sold thereunder or pursuant to Rule 144 or may be sold without volume or manner-of-sale restrictions pursuant to Rule 144 and without the requirement for us to be in compliance with the current public information requirement under Rule 144. We are required to make certain payments to such purchasers if we fail to meet our obligations under the Registration Rights Agreement.

SELLING STOCKHOLDERS

The shares of Common Stock being offered by the selling stockholders are those issuable to the selling stockholders upon exercise of the Warrants. For additional information regarding the issuance of the Warrants, see “Private Placement of Warrants” above. See also “Material Relationships with the Selling Stockholders” below for additional information on the Warrants. We are registering the shares of Common Stock in order to permit the selling stockholders to offer the shares of Common Stock for resale from time to time.

The table below lists the selling stockholders and other information regarding the “beneficial ownership” of the shares of Common Stock by each of the selling stockholders. In accordance with Rule 13d-3 of the Exchange Act, “beneficial ownership” includes any shares of Common Stock as to which the selling stockholders have sole or shared voting power or investment power and any shares of Common Stock the selling stockholders have the right to acquire within sixty (60) days (including shares of Common Stock issuable pursuant to convertible notes and warrants currently convertible or exercisable, or convertible or exercisable within sixty (60) days).

The second column indicates the number of shares of Common Stock beneficially owned by each selling stockholder, based on its ownership of the Warrants, as of October 8, 2015, even though the Warrants are not exercisable until February 4, 2016 (*i.e.* , not exercisable within sixty (60) days of October 8, 2015). The second column also assumes exercise of all the Warrants held by the selling stockholders on October 8, 2015 without regard to any limitations on exercise described in this prospectus or in such Warrants.

The third column lists the shares of Common Stock being offered by this prospectus by each selling stockholder. Such aggregate amount of Common Stock does not take into account any applicable limitations on exercise of the Warrants.

This prospectus covers the resale of (i) all of the shares of Common Stock issued and issuable upon exercise of the Warrants, (ii) any additional shares of Common Stock issued and issuable in connection with any anti-dilution provisions in the Warrants (in each case without giving effect to any limitations on exercise set forth in the Warrants) and (iii) any securities issued or then issuable upon any stock split, dividend or other distribution, recapitalization or similar event with respect to the foregoing. Because the exercise price of the Warrants may be adjusted, the number of shares of Common Stock that will actually be issued may be more or less than the number of shares of Common Stock being offered by this prospectus. The selling stockholders can offer all, some or none of their shares of Common Stock, thus we have no way of determining the number of shares of Common Stock they will hold after this offering. Therefore, the fourth and fifth columns assume that the selling stockholders will sell all shares of Common Stock covered by this prospectus. See “Plan of Distribution.”

Each selling stockholder identified below has confirmed to us that it is not a broker-dealer or an affiliate of a broker-dealer within the meaning of United States federal securities laws.

PLAN OF DISTRIBUTION

Each selling stockholder of the securities and any of their pledgees, assignees and successors-in-interest may, from time to time, sell any or all of their securities covered hereby on any trading market, stock exchange or other trading facility on which the securities are traded or in private transactions. These sales may be at fixed or negotiated prices. A selling stockholder may use any one or more of the following methods when selling securities:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the securities as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- settlement of short sales;
- in transactions through broker-dealers that agree with the selling stockholders to sell a specified number of such securities at a stipulated price per security;
- through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;
- a combination of any such methods of sale; or
- any other method permitted pursuant to applicable law.

The selling stockholders may also sell securities under Rule 144 under the Securities Act, if available, rather than under this prospectus.

Broker-dealers engaged by the selling stockholders may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the selling stockholders (or, if any broker-dealer acts as agent for the purchaser of securities, from the purchaser) in amounts to be negotiated, but, except as set forth in a supplement to this prospectus, in the case of an agency transaction not in excess of a customary brokerage commission in compliance with FINRA Rule 2440; and in the case of a principal transaction a markup or markdown in compliance with FINRA IM-2440.

In connection with the sale of the securities covered hereby, the selling stockholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the securities in the course of hedging the positions they assume. The selling stockholders may also sell securities short and deliver these securities to close out their short positions, or loan or pledge the securities to broker-dealers that in turn may sell these securities. The selling stockholders may also enter into option or other transactions with broker-dealers or other financial institutions or create one or more derivative securities which require the delivery to such broker-dealer or other financial institution of securities offered by this prospectus, which securities such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

The selling stockholders and any broker-dealers or agents that are involved in selling the securities may be deemed to be “underwriters” within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the securities purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. Each selling stockholder has informed us that it does not have any written or oral agreement or understanding, directly or indirectly, with any person to distribute the securities.

We are required to pay certain fees and expenses incurred by us incident to the registration of the securities. We have agreed to indemnify the selling stockholders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act.

Because the selling stockholders may be deemed to be “underwriters” within the meaning of the Securities Act, they will be subject to the prospectus delivery requirements of the Securities Act, including Rule 172 thereunder. In addition, any securities covered by this prospectus which qualify for sale pursuant to Rule 144 under the Securities Act may be sold under Rule 144 rather than under this prospectus. The selling stockholders have advised us that there is no underwriter or coordinating broker acting in connection with the proposed sale of the resale securities by the selling stockholders.

We agreed to keep this prospectus effective until the earlier of (i) the date on which the securities may be resold by the selling stockholders without registration and without regard to any volume or manner-of-sale limitations by reason of Rule 144, without the requirement for us to be in compliance with the current public information requirement under Rule 144 under the Securities Act or any other rule of similar effect or (ii) all of the securities have been sold pursuant to this prospectus or Rule 144 under the Securities Act or any other rule of similar effect. The resale securities will be sold only through registered or licensed brokers or dealers if required under applicable state securities laws. In addition, in certain states, the resale securities covered hereby may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

Under applicable rules and regulations under the Exchange Act, any person engaged in the distribution of the resale securities may not simultaneously engage in market making activities with respect to the Common Stock for the applicable restricted period, as defined in Regulation M, prior to the commencement of the distribution. In addition, the selling stockholders will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including Regulation M, which may limit the timing of purchases and sales of the Common Stock by the selling stockholders or any other person. We will make copies of this prospectus available to the selling stockholders and have informed them of the need to deliver a copy of this prospectus to each purchaser at or prior to the time of the sale (including by compliance with Rule 172 under the Securities Act).
